

## Biology – Unit 0 Worksheet 2: Life Challenges

You are presented with different objects and your goal is to determine if the object is living or not living. Research the object online if you need more information. In the second column provide evidence that it is a living object and in the third column provide evidence that it is not a living object. Finally make a claim that states if the object is living and justify your reasoning.

Object	Evidence that it is living	Evidence that it is not living
Fire 		
Is fire living? Justify your reason.		
After the whiteboard meeting, did your decision or reasoning change? How so?		
An Apple That Has Been Picked 		
Is an apple living? Justify your reasoning.		
After the whiteboard meeting, did your decision or reasoning change? How so?		

Object	Evidence that it is living	Evidence that it is not living
Sherlock Puppy 		
Is a shetland pony living? Justify your answer.		
After the whiteboard meeting, did your decision or reasoning change? How so?		
Cloud 		
Are clouds living? Justify your answer.
