Please write a CER based on the following information — Claim — Evidence — Reasoning
The class generated some data. They measured the starting mass of 5 crickets and put each cricket in
its own container. Then they gave each cricket 3 grams of food and made sure the crickets always had
the same amount of water. After one week, the students measured the mass of the cricket, leftover food

and cricket feces. Below are the data they generated.

Sample	Increase in cricket mass (g)	Decrease in mass of food (g)	Mass of solid waste (g)
1	+0.2	-2.0	+0.4
2	+0.2	-2.1	+0.5
3	+0.3	-2.3	+0.5
4	+0.1	-1.9	+0.4
5	+0.4	-2.3	+0.7
Average	+0.3	-2.1	+0.5
